

Community. Commitment. Continuous Learning.

# BEACON ST. DAY PROGRAM NEWSLETTER

MAY 2023

## Mission

*LifeStream provides community-based services that support individuals in attaining greater independence, promising opportunities, and lives that are meaningful and fulfilling on their own terms, through the provision of individualized support and education.*

### Values – The Three C’s

**Community** – we value the people we serve and the communities they are a part of. We strive to ensure every person lives a full life in engaging and supportive communities.

**Commitment** – we are committed to being a cohesive, diverse team. We provide high-quality resources and support to maximize independence for those we work with, ensuring they can thrive in their everyday lives.

**Continuous Learning** – we give our full effort in all aspects of our work and throughout our organization, investing in our growth and development every step of the way.

## WHAT’S HAPPENING

As we look forward to the warm weather of spring and summer, we are planning more outdoor activities. The consumers will be putting their green thumbs to work by planting some veggies. We anticipate being able to harvest our crops in late summer/early fall. We will also be planting flowers outside of Beacon.

## Did you know?

Did you know that there are a number of additional resources that can be helpful for families to find activities happening around the area? Autism Speaks and Community Resources are two great organizations that will help families with different resources. In addition, they hold local and on-line events for the families to participate in. Another resource, The Autistic Self-Advocacy Network, encourages you to learn about making the world a more inclusive and accessible place for autistic people. The book [Welcome to the Autistic Community](#) is available for free online.

Below are a couple of links for families and friends to browse through and hopefully will be a beneficial tool.
